

CIRCULAR

Sub: Videography of post-mortem examination in cases relating to homicidal deaths.

This is in continuation of circular no. 342/MB-126/H&FW/2013/189-205 dated 07/01/2014 of this Department regarding videography of post-mortem examination in cases relating to homicidal death. In view of issues related to logistics and practical difficulties being faced, the matter was reviewed on 24/01/2014 with the concerned Hospitals, Police and Home Department.

The said circular is kept in abeyance, in the interim, as the issue would require detailed examination and assessment of the preparedness. However, the videography in case of post-mortems conducted by the medical boards, as mandated, will continue to be done as per standing practice.
